

	TECHNICAL SHEET <i>Kensui® Swine</i> <i>Liquid Intake Acidizing Additive for Bovines</i>	Document number: FT- BPA 04
		Issue: Nov-11-2020
		Review: 01 Date: Dec-01-2020

ABOUT THE WORD KENSUI®

Did you know that there are ten words for rain in Japan?

The relationship between water, weather and the seasons are part of Eastern traditions. After all, it is the main inductor of life, it was our inspiration to develop Kensui® - a protective liquid of the flock inducing the health and the alimentary use of its creation.

DESCRIPTION

Kensui® swine, is an acidifying additive, used in liquid intake for cattle, via drinking water. The ***Kensui®*** technology is safe, easy to use and economic.

It produces improvement results associated with the various quality parameters making it more efficient.

BRAND

Kensui® swine, acidifier for liquid intake for cattle.

COMPOSITION

Acetic acid, lactic acid, water.

GUARANTEES

Acetic acid: 2.0 g/Litre

Lactic acid: 9.0 g/Litre

PRESENTATION

Fluid, "homogeneous suspension" of brown color.

PACKAGES

1L: (for box with 10 units) white plastic packaging, with valved lid, capacity: 1L, box height 25 cm, width 45 cm, length 18 cm, net weight: 10 kg and gross weight: 11 kg.

5L: white plastic packaging, with valved lid, 5L capacity, height 21 cm, width 14 cm, length 25 cm, net weight: 5 kg and gross weight: 6 kg.

20L: blue plastic packaging, with valved lid, capacity 20L, height 40 cm, width 25 cm, length 25 cm, net weight: 20 kg and gross weight: 21 kg.

The product specifications are described on an adhesive label, attached to the front part of the package.

INDICATION OF USE

Kensui® swine is used to promote the reducing the pH of drinking water to benefit the digestive metabolism of the production animals and obtaining improvement in zootechnical performance.

HOW TO USE

Species	Dosage	Package
Swine	Growing (up to 1 year): 1 to 3 mL/animal/day Adults: 3 to 6 mL/animal/day	Pumps 20 L Gallons 5 L Bottle 1 L
