	<b>BOKASHI GARDEN®</b>	<b>Issue: Nov-11-2020</b>
	<i>Compost Organic Fertilizer Class A</i>	<b>Review: 01</b> <b>Date: Dec-01-2020</b>

## **ABOUT THE PRODUCT**

*Its mechanism of action consists of the set of principles of soil revitalization. Its use promotes the biological balance of the soil, recovers degraded soils, improves the physical and chemical conditions of the soil and increases the capacity to water retention. In contact with the plant, it improves the roots development, increases the availability and absorption of nutrients, making the plant more vigorous and resistant to adverse conditions, and the soil is fluffier and more permeable.*

## **DESCRIPTION**

**Bokashi Garden®** is produced through unique Korin Technology & Living Soil formulation, from fermentations of various raw vegetables materials combinations. Korin Bio Input Line preserves the environment and is healthier for the producer as for the consumer.

## **BRAND**

*Bokashi Garden®*

## **COMPOSITION**

Water, yeast extract, organic compost and sugar cane molasses.

## GUARANTEES

<b>Water Soluble Nitrogen</b>	<b>0.5% w/w (5g/L)</b>
<b>Total Organic Carbon</b>	<b>8% w/w</b>
<b>Density</b>	<b>1.01 g/mL</b>
<b>pH</b>	<b>3.8</b>
<b>Electrical conductivity</b>	<b>20 mS/cm</b>
<b>Saline Index</b>	<b>10</b>

## PRESENTATION

Fluid, "homogeneous suspension".

## PACKAGES

**100mL:** white plastic packaging, with valved cap, capacity: 100mL.

**BOKASHI HORTA**

**KORIN**  
AGRICULTURA E MEIO AMBIENTE

**SOLO MAIS FOFO, PERMEÁVEL E COM MAIS ENRAIZAMENTO**

**CONTEÚDO 100ml**

**IBD**  
INSUMO APROVADO

**CPMO**  
Código de Registro  
Fluor 0404  
CVM 159

**100** Seguro  
no Produto  
até 30 dias  
de validade  
contra  
falhas de fábrica

**7 898938 300674**

**Bokashi Horta**

**Forma de utilização:**  
**AGITE ANTES DE USAR**

- Aplicação no solo com regador: diluir 10 ml (4 tampas) em 1 litro de água limpa e regar em 1 m<sup>2</sup> de solo a cada 30 dias.
- Aplicação com borrifador nas folhas: diluir 5 ml (2 tampas) em 1 litro de água limpa e pulverizar por cima e por baixo das folhas na frequência de 7 a 10 dias.

ARMAZENAR EM LOCAL SECO E FRESCO.

**Garantias**

Nitrogênio Solúvel em água	0,5 % p/p (5 g/L)
Carbono Orgânico Total	8,0 %
Densidade	1,01 g/ml
pH	3,8
Condutividade elétrica	20 mS/cm
Índice Salino	10

**Natureza física:** Fluido "suspensão homogênea."

**Composição:** Água, extrato de Levedura, composto orgânico e melado de cana de açúcar.

**Fertilizante Orgânico Composto Classe - A Via foliar, fertirrigação e solo.** Registro no MAPA: EP SP: 002504-8 - Registro de produto: SP 002534-8.000005

The product specifications are described on an adhesive label, attached to the front part of the package.

## INDICATION OF USE

***Bokashi Garden***<sup>®</sup> is a natural fermented compound with high nutrient content. It is produced by a controlled fermentation process. Through this process, the nutrients of this compound become available so that the roots of the plants absorb them, providing a balanced nutrition.

## HOW TO USE

Application	Dosage	Package
Soil	<ul style="list-style-type: none"><li>• Apply with watering can</li><li>• Dilute 10mL (4 caps) in 1 liter of clean water in 1 m<sup>2</sup> of soil every 30 days.</li></ul>	100mL bottle
Leaf	<ul style="list-style-type: none"><li>• Application with sprayer</li><li>• Dilute 5mL (2 caps) in 1 liter of water clean and spray from above and below of the leaves at a frequency of 7 to 10 days.</li></ul>	100mL bottle

## STORAGE CONDITIONS

Store in a dry and cool place.

## PRECAUTIONS

Always use according to the official dosage recommendation so the technology can express the maximum benefit for the soil and plants. Preferably perform the applications in mild sunny hours or in cloudy days. Rains do not alter the effects of the product and may even express plus its effects.
