### **ABOUT THE WORD JUNDO®**

*Did you know that home care is one of the main Japanese traditions? On the first day of the year, there is the custom of cleaning the house and the scent is the first sensation we notice when entering a place and can be responsible for the kind of connection we create there. Jundo means purity of home because the house of the flock creator is his creation. His goal is to bring this care of our customs to protect his flock and increase their productivity.*

### **DESCRIPTION**

**Jundo®**, is an acidizing additive, used in liquid intake by drinking water, for birds, cattle and pigs. **Jundo®** technology is safe, easy to use and economical. It produces improvement results associated with the various quality parameters, making them more efficient.
